

REMARKS

The Specification is amended to further comport with U.S. practice and, in so doing, to better define the invention without limiting effect. Claim 1 is amended voluntarily to provide antecedent basis for the term "lamp" in the preamble, and to delineate a - lighting fixture **having** a device - - (emphasis added) rather than a "lighting fixture with a device", and to indicate a - - flexible retaining member - - (emphasis added) instead of a "flexible retainer member" for consistency with the specification, as a matter of desired style and, collectively, to better define the invention without limiting effect.

If there is any further point requiring attention prior to issuance, the Examiner is asked to contact Applicant's counsel at (646) 265-1468.

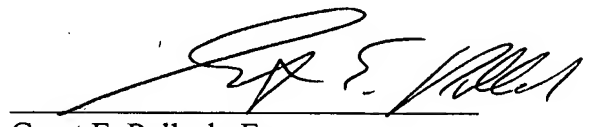

Respectfully submitted,

Dated: September 25, 2007
